

NO-FUSS SETUP

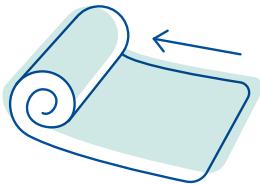

- 1** Slide compressed crib mattress out of the box.

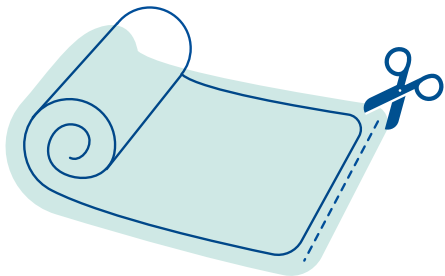

- 2** Pull the outer wrapper at the thick seam to unroll the crib mattress. **Do not** use a knife or scissors to cut this, it will unroll easily.

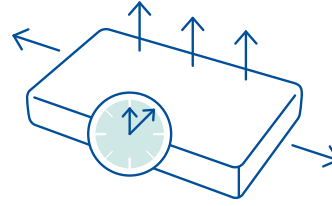

- 3** Roll out the compressed crib mattress.

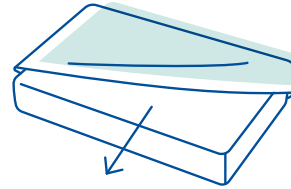

- 4** Cut the bag at the sealed edge with scissors, careful not to cut any of the crib mattress edges. Remove the outer bag and discard. **Keep bag away from children.**

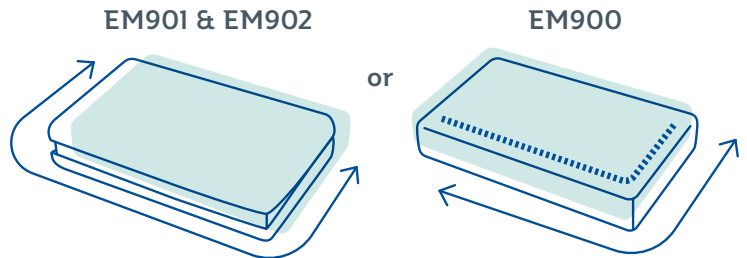

- 5** The crib mattress will take shape within 5 minutes.

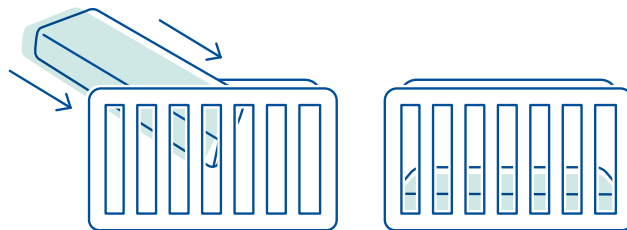

- 6** Models **EM901 & EM902** are shipped with the cover off to help maintain quality. To assemble the cover on the crib mattress, slide the cover over the foam core.

- 7** Fully close the zipper around the crib mattress core.

- 8** After the crib mattress is completely rolled out and the cover is securely zipped closed, place into baby's crib or toddler bed.

Allow up to **48 Hours** for the mattress to return to its fully intended size before using.
